CAREER OBJECTIVE

To begin my professional journey as a Full-Stack Web Developer where I can apply my skills in Next.js, Node.js, and MongoDB to build impactful, user-focused applications. I am driven by clean code, real-world problem solving, and a constant desire to learn — and I am looking for an opportunity where I can contribute, grow, and make a difference.

SKILLS

- **Languages:** JavaScript (ES6+), C++, HTML5, CSS3
 - **MERN Stack:** MongoDB, Express.js, React, Node.js
 - **Frontend Core:** Next.js, React, Tailwind CSS, Raw CSS, Responsive Design
 - **Database:** MongoDB, MySQL
 - **Authentication:** JWT, BetterAuth
 - **Workflow:** Git & GitHub, Vercel, Netlify, VS Code
 - **Soft skills:** Real time problem solver, Communication, Adaptability, Team Collaboration
-

RECENT PROJECTS

Ghurni

[Live Link](#) [Github Repository Link](#)

- A full-stack travel ticketing platform connecting travelers with bus, train, launch, and plane vendors across Bangladesh.
- Tech Stack: Next.js, React, Tailwind CSS, BetterAuth, Stripe, Express.js, MongoDB, Vercel.
- Built a dynamic homepage with hero slider, advertised ticket showcase, and advanced search, filter, sort, and pagination features.
- Developed three distinct dashboards for Travelers, Vendors, and Admins with booking management, revenue charts, and fraud controls.

StudyNook

[Live Link](#) [Github Repository Link](#)

- A full-stack library study room booking app with JWT authentication and role-based dashboards.
 - Tech Stack: Next.js, React, Node.js, Express, MongoDB, BetterAuth, JWT, Tailwind CSS, Vercel
 - Built room browsing, search, and filter features with a booking system and double-booking prevention logic.
 - Developed separate dashboards for room owners and users.
-
